Another innovative solution for your grommet needs. Plastic grommets from ClipsShop!

ClipsShop plastic grommets are composed of two same looking sides. After drilling the required hole on the fabric, all you need is simply attaching the two sides with your fingers.

ClipsShop offers plastics grommets in any color you like or in different kinds of finishing. i.e. transparent, gold, silver, nickel, satin nickel. Today, ClipsShop's plastic grommets are used all around the world mostly in home textile industry.

Three different sizes of plastic grommets are listed in the table.
