

CSPIC-2 is an ultimate pneumatic machine to accelerate the grommet application process and increase efficiency. CSPIC-2 carries hi-tech electronic safety system that doesn't interfere with the operator's work. This advanced feature increases the operational capabilities of pneumatic machines significantly. It also carries professional components which self grease the machine and protect the machine from the humidity of the air coming from compressor. These professional components widely increase the life span of the machine. With all these superior features, CSPIC-2 is a perfect choice for whom looks for a reliable pneumatic machine for applying high quantities and variable sizes of grommets with a single machine for years.

- ✦ **Hands-free use.** CSPIC-2 is operated by a pneumatic foot pedal. Thus, the operator could use both hands for loading the grommet and adjusting the material during the application.
- ✦ **Advanced Safety system.** Unlike most pneumatic machines' mechanical safety systems that limit the capabilities of the machine, CSPIC-2's safety system senses human static electricity in case the user touches any metal part of the machine and immediately stops the machine. This wise system widely increases the variety of projects that you can handle with CSPIC-2 without risking the operator.
- ✦ **Self greasing.** No need for external greasing. CSPIC-2 greases itself by its built-in components.
- ✦ **Moisture control.** Drains the humidity in the air coming from the compressor before reaching the machine. Thus, it avoids rusting problem in the long term.
- ✦ **Adjustable pneumatic pressure level.**
- ✦ **Works with small compressor**
- ✦ **Completely assembled.** Comes as shown in the picture, with a built in table.
- ✦ **On the wheel version is available.**
- ✦ **Optional laser pointer.** An optional laser pointer can be installed on the CSPIC-2 in order to show the operator the exact attaching point.
- ✦ **Interchangeable dies.** All ClipsShop self-piercing dies up to size #12 are compatible with the CSPIC-2 machine.
- ✦ **Suitable for applications on various materials.**

## CSPIC-2 w CSPIC-2

### Technical Data

Throat Depth (from the center of the die)	85 mm	3 1/4 inches
Applicable Grommet Sizes	#12 (40 mm hole size) and smaller sizes	
Net Weight (CSPIC-2)	52 kg	115 lbs.
Net Weight (CSPIC-2 w)	37,5 kg	83 lbs.
Dimensions (Height*Width*Depth)	1290x540x540 mm	50 3/4 x 21 1/4 x 21 1/4 inches
Table size (on the wheel version)	400x500 mm	15 3/4 x 19 3/4 inches
